3 (Sem-3/CBCS) BOT HC 3

2021

(Held in 2022)

BOTANY

(Honours)

Paper : BOT-HC-3036

(Genetics)

Full Marks : 60

Time : Three hours

The figures in the margin indicate full marks for the questions.

1. Answer the following questions as directed :
1×7=7

(a) Holandric genes on the differential segment of Y-chromosome are inherited only by —

(i) males

(ii) females

(iii) both parents

(iv) None of the above.

(Choose the correct answer)

Contd.

- (b) Linked genes do not obey Mendel's _____ law. *(Fill in the blank)*
- (c) How does expressivity differ from penetrance?
- (d) The change in the sequence and position of genes (position effect) is the result of—
- (i) duplication
 - (ii) translocation
 - (iii) inversion
 - (iv) deletion.
- (Choose the correct answer)*
- (e) mtDNA shows—
- (i) maternal inheritance
 - (ii) nuclear inheritance
 - (iii) paternal inheritance
 - (iv) None of the above.
- (Choose the correct answer)*
- (f) What do you understand by the word 'Mutan'?
- (g) Define autosomes.

2. Answer the following questions briefly :

2×4=8

- (a) How can you determine that a pedigree is autosomal dominant?
- (b) State the significance of linkage.
- (c) What is allopolyploidy? Cite example.
- (d) Write the full form of EMS and DMS.

3. Answer **any three** of the following questions :

5×3=15

- (a) What is the difference between incomplete dominance and co-dominance? Cite examples.
- (b) Write a short note on Role of Transposons in Mutation.
- (c) 'It is said that inversion suppresses crossing over' — Explain.
- (d) Write a short note on Hardy-Weinberg law.
- (e) Write briefly on euploidy.

4. Answer the following questions : $10 \times 3 = 30$

- (a) What is polygenic inheritance? Explain with a suitable example. $2+8=10$

OR

Explain different types of DNA repair mechanisms. What would be the consequences if DNA repair mechanisms were not there?

$6+4=10$

- (b) What are sex chromosomes? Explain sex-linked inheritance with the help of example. $2+8=10$

OR

What do you understand by extra-chromosomal inheritance? Discuss about chloroplast inheritance in Four o'clock plant. $2+8=10$

- (c) Write a note on the CIB method of detection of mutation. 10

OR

What are chemical mutagens? Write in brief about base analogues and deamination. $2+8=10$
